DETAILED ACTION

1. This Action is in response to Application Number 10/687,266 received on 3/13/2008.
2. Claims 1, 4, and 7 are presented for examination.
3. Applicant's arguments, see Applicant's Response, filed 3/13/2008, with respect to claims 1, 4, and 7 have been fully considered and are persuasive. The rejection of Dorenbosch in view of Alkhatib has been withdrawn.
4. The drawings were received on 12/02/2004. These drawings are accepted.
5. This application is in condition for allowance except for the following formal matters:
6. Claim 1 includes the limitation, "said source routing address for said NAT device." While it is understood that "said source routing address" corresponds simply to the address for said NAT device, the limitation should be amended to "a source routing address" in order to remove any possible antecedent basis issues.
7. Claim 1 recites the limitation, "returning from said DNS server...said plurality of private addresses for said NAT data processing system and a plurality of parallel data processing systems." While it is understood what was meant by this limitation was returning private address for said NAT data processing system and returning private addresses of a plurality of parallel data processing systems (not returning the systems themselves), the limitation should be amended to show this matter.
8. Prosecution on the merits is closed in accordance with the practice under Ex parte Quayle, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire TWO MONTHS from the mailing date of this letter.
